

Men FOR CHOICE

As part of the **7 in 10 Americans who support access to legal abortion**, Men for Choice stand with women across the country in the shared fight for reproductive freedom. NARAL Pro-Choice America founded the Men for Choice program in 2013 to provide a platform for men who recognize that everyone has a part in ensuring respect for women's rights. Since then, events have been held in places like **Iowa, Texas, New York, California, and DC** to highlight the men who are standing up to make sure that every woman has access to the full range of reproductive healthcare options, including preventing and terminating unintended pregnancy and bearing healthy children.

The Men for Choice program brings together influencers, celebrities, politicians, and everyday people who get that it's never okay for politicians to judge a woman's personal decisions or try to take away our families' healthcare options. Cultural and thought leaders such as **Tony Goldwyn, Jamil Smith, Mark Ruffalo, Matt McGorry, Norman Lear, Senator Richard Blumenthal, and New York State Attorney General Eric Schneiderman** have all lent their voices and energy. **#MenforChoice** has trended nationally and locally during events around the country.

"We all have to stand up and fight alongside American women to make sure that they have the freedom to control their own futures."

TONY GOLDWYN
Actor & Man for Choice

"I want for women what I want for myself: a life of dignity, health, self-determination and the opportunity to excel and contribute."

DR. WILLIE J. PARKER
Doctor & Man for Choice

As Men For Choice, we don't pretend to know what's best for women and their health choices. What we do know is that we all thrive together when the women in our lives are treated equally and with dignity. Speaking up is the beginning of change. Add your voice to the movement. **Stand with the Men for Choice.**
