How American Anti-Choice Activists are Trying to Influence Ireland’s Abortion Referendum on May 25

**U.S.-based anti-choice organizations have been meddling with Ireland’s 8th Amendment for decades and are actively working to preserve it from overseas**

For decades, anti-choice organizations based in the U.S. have been working to preserve Ireland’s 8th Amendment of its constitution, which effectively bans abortion, showcasing just how far these groups will go to try to strip women -- not just in the U.S., but also abroad -- of their right to make decisions about their own bodies, futures, and lives.

For the last several years, the debate in Ireland has been moving closer to reform, especially with the European Court of Human Rights ruling in 2010 that Ireland was violating the European Convention on Human Rights; after a woman died in 2012 due to being denied an abortion in the case of septic miscarriage; and in 2013 when a bill was passed that defined certain circumstances that would permit abortion. Ireland will hold a referendum on May 25, 2018, in which voters will decide whether to repeal or preserve the harmful 8th Amendment.

It was recently reported that tech giants Google and Facebook are ceasing to accept advertisements from groups based outside of Ireland out of concern that this overseas advertising will skew the results of the May 25 referendum. As of May 9, Google will also stop all referendum-advertising that originates domestically.

**American anti-choice organizations have been involved for decades**

American Anti-Choice Legal Group Americans United For Life Played “Pivotal Role” In Passing 8th Amendment in the 1970s, And Engaged In An Extensive...Media Campaign In Ireland,” And Stayed Active in “Subsequent Legal Battles.” According to the website of anti-choice organization Americans United for Life: “In 1979, AUL played a pivotal role in amending the Irish Constitution to protect life by precluding abortion. At a pro-life conference in Ireland, AUL was consulted about abortion and the role Roe v. Wade played in the US. Subsequently, AUL engaged in an extensive educational and media campaign in Ireland. Eventually, the Irish people amended their constitution...Their pro-life constitution is being challenged currently before the European Court of Human Rights in a case in which Senior Vice President William Saunders is a consultant.” On another page of its website, AUL also noted that, in Ireland’s "subsequent legal battles...AUL was there to fight for life.” [Americans United For Life, “About,” accessed 1/18/18, via NARAL Research Department; Americans United For Life, “Accomplishments,” accessed 1/18/18, via NARAL Research Department]

In a March 17 letter to Irish Prime Minister Leo Varadkar, American anti-choice activists argued Varadkar to “take a stand against the repeal of the 8th.” According to Crux, “The letter was signed by Jeanne Mancini, President of the March for Life; Marjorie Dannenfelser, President of the Susan B. Anthony List; Kristan Hawkins, Executive Director of Students for Life; and Catherine Glenn Foster, President of Americans United for Life, among others.” [Crux, 3/15/18]
